Michal Chomo

Senior Software Engineer

Slovakia

Summary

<https://michalchomo.eu>

Experience

Comprimato

Senior Software Engineer

May 2022 - Present (9 months)

SolarWinds

3 years 8 months

Senior Developer

February 2021 - February 2022 (1 year 1 month)

Brno, South Moravia, Czechia

Working on microservices for a new project using Kotlin, GraphQL, Kubernetes and various AWS products. I'm responsible for designing, implementing and testing new functionality while maintaining high quality of the codebase. Besides that, our team is still managing the data pipeline for Loggly - SaaS log management solution, so I'm solving customer issues and responding to incidents if needed.

Developer

July 2018 - February 2021 (2 years 8 months)

District Brno-City, Czech Republic

I work on a log management and analysis SaaS product Loggly. Technologies we use include Java, Spring framework, Python, Git, Bash, CircleCI, Docker, AWS, Apache Kafka, Elasticsearch, Ansible and more. Development process is agile.

GreyCortex

Java Developer

November 2016 - June 2018 (1 year 8 months)

District Brno-City, Czech Republic

I started as a front-end Java and JavaScript developer and then gradually moved to back-end development working also with Java and with PostgreSQL.

I became familiar with agile software development and tools such as Jira and Confluence and enhanced my experience with Git, Bash and Python.

Aliacte s.r.o.

SW Developer

March 2016 - September 2016 (7 months)

Creating information system and Android application within a small team (5 people). I worked with PHP, JavaScript, jQuery, MongoDB and Java.

ASIPEM s.r.o.

C programmer

June 2015 - August 2015 (3 months)

Maintaining an existing project, adding new features, fixing bugs, testing, writing documentation.
